Abstract Evaluation Form

<b>Name:</b>	
<b>Study Title:</b>	
<b>Background/Objective (Clinical/Community/Basic Science)</b> The introduction clearly states the rationale for the study.	<b>1 2 3 4 5</b> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<b>Introduction (Case Report)</b> The significant and unique aspects of the case are clearly stated.	<b>1 2 3 4 5</b> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<b>Comments</b>	
<b>Methods (Clinical/Community/Basic Science)</b> Based upon the quality of the methods the results should be valid. <ul style="list-style-type: none"> <li>• Research design is appropriate to achieve the specific aim</li> <li>• All relevant inclusion/exclusion criteria addressed</li> <li>• Primary outcome variable identified</li> <li>• Treatments/interventions described (if applicable)</li> </ul>	<b>1 2 3 4 5</b> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<b>Methods/Patient Description (Case Report)</b> Information relevant to the description of the case is provided (e.g., patient characteristics, diagnostic information).	
<b>Comments</b>	
<b>Results (Clinical/Community/Basic Science)</b> Information is presented in clear, easy-to-follow manner. <ul style="list-style-type: none"> <li>• Results for primary outcome variable clearly stated</li> <li>• Statistically significant effects are clearly indicated (if applicable)</li> </ul>	<b>1 2 3 4 5</b> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<b>Results/Intervention (Case Report)</b> Information is presented in clear, easy-to-follow manner. Patient outcomes and interventions are described.	
<b>Comments</b>	
<b>Conclusions (Clinical/Community/Basic Science)</b> An interpretation of the findings and the major conclusions are presented clearly.	<b>1 2 3 4 5</b> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<b>Conclusions (Case Report)</b> An interpretation of the findings and the major contribution of this case are presented clearly.

## RATING SCALE

- (5) Excellent** Excellent in every way. Equal in quality to nationally presented and/or published papers.
- (4) Very Good** Above average. Adequate for presentation at state/regional meetings; could use additional work to qualify for national presentation.
- (3) Good** Satisfactory or average presentation. Would need additional work to be presented at state or regional meetings.
- (2) Marginal** Meets minimum expectations, but would need considerable additional work to correct deficiencies.
- (1) Poor** Poor. Did not meet minimum expectations. Not of publishable or presentable quality.
